You'll receive the corresponding amount of FTB FINCOINS directly in the same wallet.

N.B.: To receive FTB Fincoins you need to send waves directly from your own wallet and not from an exchange! You can create your own wallet from <https://waveswallet.io>.

It's possible to purchase waves through BTC or Eth on <https://bittrex.com>.

It's also possible purchasing waves with Euro or USD directly from your own Waves Wallet (<https://waveswallet.io>) with both credit or debit card:

- Once created a wallet, in the initial window, just click the icon "deposit" in the box "waves".

- After clicking on "deposit", the following screen will appear:

- By selecting the amount and the currency, and by clicking on 'Buy', will take place the verification and payment process.
- Afterwards, Waves will be available in your own Wallet.

### ***Bitcoin and Ether via Waves Platform:***

After having created your own Waves wallet on <https://waveswallet.io>, in order to deposit bitcoins or ether, you'll just need to click on 'deposit' in the box referring to the currency chosen (We assume Bitcoin in the image):

In the following screen will be shown Bitcoin (or Ethereum) address where sending your own BTC. Once received, Waves Platform will accredit the amount in the Wallet.

To receive FTB Fincoins, you'll just need to click 'Send' in the box of the currency you mean to send, with including the following Recipient's Address:

The image shows a screenshot of the 'SEND PAYMENT: Bitcoin' screen in the Waves Lite Client. At the top, there is a dark blue header with the Waves logo and 'LITE CLIENT' text. Below the header, the title 'SEND PAYMENT: Bitcoin' is displayed. To the right, the asset balance is shown as 'Asset balance: 0 BTC' and the Waves balance as 'Waves balance: 0 WAVES'. The main content is a form with two columns: 'DESCRIPTION' and 'INPUT'. The form has four rows: 'Recipient's Address' with a text input field containing 'Recipient'; 'Amount' with a text input field containing '0'; 'Attachment' with a text area; and 'Fee' with a text input field containing '0.001' and a close button (X). Below the form is a 'SUBMIT' button. At the bottom, there is a support link: [support.wavesplatform.com](https://support.wavesplatform.com).

N.B.: To make a transaction in Waves Platform, waves are required! If you want to send bitcoins or Eth via Waves Platform but you don't actually own waves, you can easily write to our email address [info@ft-bank.com](mailto:info@ft-bank.com), sending your own Waves Address (it always appear on top of the screen, it's an alphanumeric code starting with "3").

FTB will send you enough waves to make the transaction so that receiving FTB Fincoins in the same wallet.
