

**FTB**

**HOW TO PARTICIPATE  
TO THE ICO WITH  
EURO, DOLLARS OR  
POUNDS VIA WAVES  
PLATFORM**

You can participate to FTB ICO directly with euro or dollars via Waves Platform with SEPA transfers (GBP deposits will be exchanged to Euro token or USD token in Waves Lite Client.).

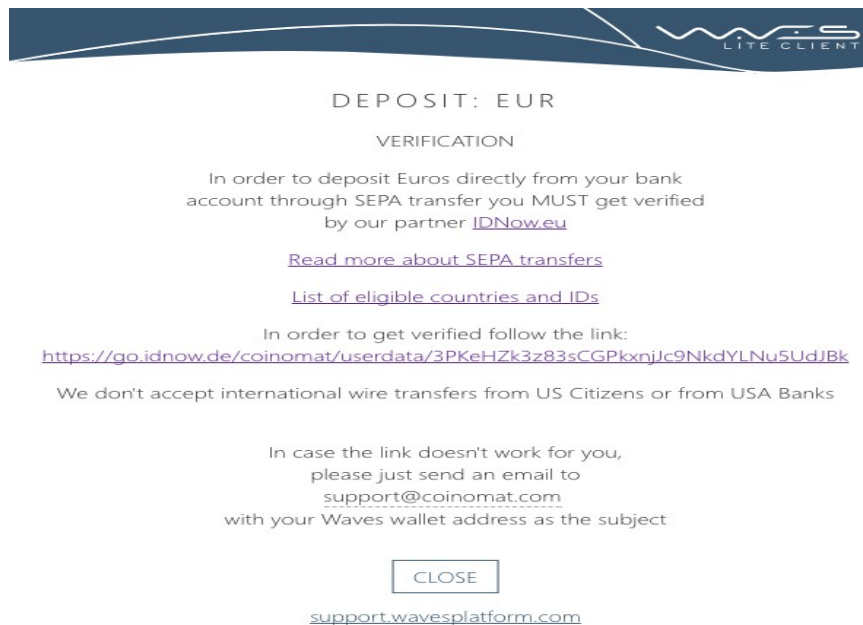

Participating is easy:

- 1) if you don't own it yet, just create a Waves Wallet on <https://waveswallet.io>.  
N.B. It's advisable writing the seed down on a paper sheet, the seed represents the private key and it's the most important thing!

- 2) Once accessed the splash screen, click 'deposit' in the box of the corresponding currency:

- 3) In the following screen, click the link to proceed to data verification: below “In order to get verified follow the link”:

- 4) After having completed the procedure and made the payment, EUR/USD tokens will be accredited in your own wallet (waiting time may vary depending on your Country or your Bank).

5) At this stage you'll be required to send EUR or USD to the following waves address:

**3P9fERrugSCZadmxuoRrSw4Czao8VaytQuL**

To send it just click on 'send' below the box corresponding to the currency you wish to send over.

6) The following screen will appear:
